- Java – Spring Framework, Maven

- Markup – **JSX/TSX**, **HTML5**, Amp, Razor
- Stylesheets – **SCSS**, **CSS4**, Styled Components, Bootstrap, Foundation

- Databases – **SQL Server,** MongoDB, Firebase
- Testing – Jest, Enzyme, xUnit
- CMS – **Sanity**, Kintaro

Tools:

- **Git**, **Webpack**, **npm/yarn**, **IIS**, Babel, Jenkins

Other Tools:

- BrowserStack, Figma, Zeplin, New Relic, Google Analytics
- VSCode + Vim, Android Studio, Xcode

WORK EXPERIENCE

Frontend Software Engineer – Hook — *May 2022 – December 2022*

Creative frontend developer for an ad agency and digital production company with a focus on animations

- Worked with designers to build visually captivating web experiences using **Typescript**, **ReactJS**, **NextJS**, **Sanity**, and **GSAP** on the Hook website
- Implemented Google's version of an Instagram story ad using their custom tech stack (Amp, Kintaro, Bracket)

Frontend Software Engineer – Ghostery — *Sept 2019 – April 2021*

Frontend developer in a startup creating privacy tools including browser and system level ad-blockers

- Built animated graphs and themes for open source ad-blocking **browser extension** using **ReactJS**, **Redux**, **SCSS**, **D3.js**, **Jest**, and Golang
- Implemented the UI for tracking realtime network requests in the ad-blocking **electron app**
- Created a series of prompts to configure Ghostery Browser settings on first open

Software Engineer – DWM Comprehensive Facility Solutions — *Feb 2018 – June 2019*

Full stack technical lead for all software projects company-wide regarding architectural design, development timeline, and system failure

- Maintained 5 **web applications** that helped the company source work, record transactions and automate tasks using **JavaScript**, **React**, **Redux**, **SCSS**, **C# .NET**, **ASP.NET MVC**, **SQL Server**, **IIS**, and Firebase
- Designed and developed a **React Native** Mobile App – [Hera OnSite] – that handled the work order process for technicians from dispatch to billing
- Built an **interactive voice response system** using Twilio's API that helped technicians log time
- Mentored junior developers through pair programming and code reviews

EDUCATION

Stony Brook University — *September 2012 – May 2016*

B.S. in Computer Science
